Alameda-Contra Costa Transit District

Claudia Allen
Chief Financial Officer

December 22, 2017

The Honorable Board of Directors
Alameda-Contra Costa Transit District
Oakland, California

The Department of Finance is pleased to submit the Comprehensive Annual Financial Report (CAFR) for the Alameda-Contra Costa Transit District (“District”) for the fiscal year ended June 30, 2017, in accordance with the provisions of Sections 25250 and 25253 of the Government Code of the State of California.

The CAFR was prepared by the Department of Finance in compliance with the principles and standards for the financial reporting set forth by the Governmental Accounting Standards Board (GASB). The District assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive internal control framework established for this purpose. In accordance with GAAFR guidance, we are obligated to disclose that the cost of internal controls should not surpass their benefits, and that the objective of internal controls is to provide reasonable, rather than absolute assurance that the financial statements are free of any material misstatements.

The District’s financial records have been audited by our independent certified public accounting firm of Crowe Horwath LLP. The purpose of the independent audit was to provide reasonable assurance that the financial statements of the District for the year ended June 30, 2017, are free of material misstatements. The independent certified public accounting firm has issued an unmodified (“clean”) opinion on the District’s financial statements for the year ended June 30, 2017.

GASB 34 requires that management provide a narrative introduction, overview, and analysis to accompany the Basic Financial Statements in the form of a Management’s Discussion and Analysis (MD&A) that should be read in conjunction with the statements. The MD&A can be found immediately following the report of the independent auditors.

The CAFR is divided into the following sections:

The **INTRODUCTORY SECTION** contains a table of contents, a transmittal letter, a Certificate of Achievement for Excellence in Financial Reporting, District’s organizational chart, and a listing of the members of the Board of Directors (the Board) and the Executive Staff.

The **FINANCIAL SECTION** begins with the Independent Auditor’s Report, Management’s Discussion and Analysis (MD&A), and the Basic Financial Statements and accompanying notes

followed by required and supplementary statements and schedules intended to further enhance an understanding of the District's current financial status.

The **STATISTICAL SECTION** includes selected financial demographic and operational information, generally presented on a multi-year basis.

In addition to the annual audit of the District's Basic Financial Statements with accompanying Supplemental Information and the auditor's review of the CAFR, the District is also required to undergo audit tests to ensure compliance with provisions of laws, regulations, contracts and grant agreements as follows:

- Single Audit: to ascertain compliance with the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to its major federal program; and to determine that Transportation Development Act Funds allocated to and received by the District were expended in conformance with the applicable statutes, rules and regulations of the Transportation Development Act and the allocation instructions and resolutions of the Metropolitan Transportation Commission as required by Section 667 of Title 21 of the California Code of Regulations.
- Measure B & Measure BB Compliance Attestation: to determine compliance with the requirements described in the Measure B and BB Sales Tax for Mass Transit Funds Agreement between the District and the Alameda County Transportation Commission (ACTC).
- Measure J Compliance Attestation: to determine compliance with the requirements described in the Measure C Cooperative Agreement between the District and the Contra Costa Transportation Authority (CCTA).
- Appropriations Limit Calculation Agreed Upon Procedures Report: between District management and the League of California Cities to assist the District in meeting the requirements of Section 1.5 of Article XIII B of the California Constitution.
- AC Transit Financing Corporation Audit: a component unit of the District.
- Special Transit Service Districts No. 1 and No. 2 Agreed Upon Procedures Review: to evaluate the accuracy of the allocation between Special Transit Service Districts (STSD) No. 1 and No. 2.
- Measure VV Agreed Upon Procedures Report: to evaluate service hours and service miles and the allocation of operations and maintenance expenses by county and STSD in accordance with Measure VV voter approval.
- Evaluation of The Board Expenses Agreed Upon Procedures Report: to evaluate compliance with District policies and guidelines.
- Federal Transit Administration National Transit Database Report Agreed Upon Procedures Report: to ensure compliance with the Federal Transportation Administration (FTA) standards with Federal Funding Allocation Statistics Form FFA-10 of the

District's annual NTD report and to ensure eligibility to receive grants under Section 9 of the Urban Mass Transportation Act of 1964.

DISTRICT PROFILE

The District is a special district organized under the Public Utilities Code of the State of California. It was created on November 6, 1956, when residents of Alameda and Contra Costa counties voted to establish the public transit district and subsequently approved a \$16.5 million bond issue in 1959 enabling the District to buy out the failing privately owned Key System Transit Lines. Operations began October 1, 1960, with service to Alameda County and the Western Region of Contra Costa County.

The District is the largest bus-only system in the nation serving 13 cities and nine adjacent unincorporated areas in Alameda and Contra Costa counties (the "Service Area"). The Service Area extends from San Pablo Bay on the North to the Southern city limits of Fremont, and serves the Western portions of Contra Costa and Alameda counties providing trans-bay services to San Francisco, San Mateo and Santa Clara counties. For the location of the Service Area, see the map on the last page in the Statistical Section of this report. The Service Area is divided into two service divisions: "Special Transit District No. 1," which includes the cities of Alameda, Albany, Berkeley, El Cerrito, Emeryville, Hayward, Oakland, Piedmont, Richmond, San Leandro and San Pablo, and the unincorporated communities of Ashland, Castro Valley, El Sobrante, Kensington and San Lorenzo, and "Special Transit District No. 2," which joined the District in 1974, and includes the cities of Fremont and Newark in Southern Alameda County.

Although legally separated, based upon the foregoing criteria, the financial activities of the AC Transit Financing Corporation and the Alameda-Contra Costa Transit District Employees' Pension Plan are so financially intertwined with the District that they are, in substance, part of the District. They are included in the accompanying financial statements because of the significance of their operational or financial relationships with the District.

The District is a participant with Bay Area Rapid Transit (BART) in a joint exercise of power agreement, the East Bay Paratransit Consortium (Consortium), to provide Americans with Disabilities Act (ADA) Paratransit service in Alameda and Western Contra Costa Counties. The Consortium is a joint exercise of power between these entities. The area served encompasses the District/BART coordinated service area. The Consortium has an executive committee comprised of the General Manager (GM) from each District. The Committee, referred to as the Service Review Committee (SRC), approves policy and procedures for the Consortium after policy direction and/or approval is given by the District and BART Boards of Directors. The Boards act as the policy bodies of the Consortium. The District and BART were responsible for 69% and 31% of the expenses, respectively. In Fiscal Year 2016-17, the District incurred excess operating costs of approximately \$11.7 million related to the Consortium.

The District operates two (2) main types of service, East Bay Local Service and Transbay Service. East Bay Local Service consists of two (2) limited stop rapid bus routes, eight (8) major trunk routes, forty-five (45) local routes in Special Transit Service District 1, ten (10) local routes in Special Transit Service District 2 (Southern Alameda County), and seven (7) All-Nighter/Owl routes. In addition, East Bay Local Service also includes supplemental school service, which

provides direct access to junior high schools and senior high schools during the academic year. Transbay Service consists primarily of three (3) all-day routes and twenty-four (24) peak period routes originating from various areas of the East Bay, terminating at the Transbay Terminal in Downtown San Francisco. Also under Transbay are four (4) all-day routes and four peak period routes originating in the East Bay and terminating at locations within San Mateo and Santa Clara Counties.

The District is also a member agency of the Transbay Joint Powers Authority (TJPA), created under State law to develop a new Transit Center in downtown San Francisco. Construction of this approximately \$3 billion project began in early 2010 and is scheduled for completion in early 2018. Bus operations are expected to begin in the Salesforce Transit Center mid-2018. The new terminal will provide capacity for up to 300 bus departures per hour in a modern, efficient downtown transit terminal. Based on recent ridership studies, the District expects that up to 7,100 passengers per hour will use the new facility by 2030. This number represents nearly double the current demand.

GOVERNANCE

A seven-member Board establishes policy and sets direction for the management of the District. The general population of the service area elects Board members. Five Board members represent wards and two are elected at-large. Board members serve staggered four-year terms, so that three or four are elected every two years. Three officials report directly to the Board: the General Manager (GM), the General Counsel and the District Secretary.

Responsibility for the day-to-day management of the District rests with the GM. The District's Executive Staff consists of the following: Chief Operating Officer (COO), Chief Financial Officer (CFO), Chief Information Services Officer (CIO), Executive Director of Planning & Engineering (ED-P&E), Executive Director of Human Resources (ED-HR), Executive Director of Safety, Security & Training (ED-SS&T), and Executive Director of External Affairs, Marketing & Communications (ED-ExM&C). An organization chart that illustrates the District's organizational structure follows later in the introductory section.

The District follows the provision of GASB Statement No. 14, *The Financial Reporting Entity*. This Statement sets forth accountability of a government's elected officials to their constituents as the basic criteria for inclusion of an organization in a governmental reporting entity. The governmental reporting entity consists of the District and organizations for which the District is financially accountable. Financial accountability is defined as an appointment of a voting majority of the component unit's Board, and (1) either the District's ability to impose its will on the organization or (2) there is potential for the organization to provide a financial benefit to, or impose a financial burden on the District.

BUDGET PROCESS

The District's annual budget serves as the foundation for its financial planning and control. The GM and staff prepare and submit the budget to the Board for approval. The annual budget consists of two budgets: an operating budget and a capital budget.

For fiscal year 2017, the District had an approved annual budget of approximately \$432 million with \$395 million dedicated to operations and \$34 million approved for current capital projects. The budget contained 2,244 authorized staff positions fiscal year 16/17@ mid-year.

It is the responsibility of each department manager to administer its operations in such a manner to ensure that the use of funds is consistent with the goals and programs authorized by the Board and that approved spending levels are not exceeded.

FINANCIAL INFORMATION

Fiscal Year Ended June 30, 2017

The District's performance during FY 2016-17 resulted in a \$3.0 million change (decrease) in net position. Compared to the prior year, total revenues decreased from \$419.4 million to \$405.5 million, a decrease of 3.0%, and total expenditures decreased from \$453.7 million to \$451.9 million, a decrease of less than 1.0 %. A more detailed analysis of revenue and expense variances can be found in the Management's Discussion and Analysis (MD&A) section of this report.

Local Economy

Serving the city of Oakland and the East Bay area and adjacent to San Francisco, the District is directly influenced by the economic conditions of its service territory and the Bay Area. Overall growth in the District's transit ridership is strongly correlated with population and employment growth in the region.

The majority of the Districts' operating and maintenance investment is derived from sales and property taxes that results in the District being disproportionately impacted by changes in the economy. During fiscal year 2017, California's economy continued the robust expansion it began more than 6 years ago, but the pace of growth in the region slowed relative to the rest of the country (Beacon Economics, Regional Outlook East Bay Summer 2017).

Strengths The East Bay continues to outperform the rest of the state in job growth, with construction, government, professional and technical (including the tech sector), and health care leading the gains. Employment in the region is anticipated to grow at 1.8% for 2017 while taxable sales are forecasted to continue to grow at 3.7% in the short-term. Property values continue to climb (and so do tax revenues) due to limited inventory. The relative affordability of the East Bay should drive growth in the short term. As of June 2017, the unemployment rate for the San Francisco Bay Area was at 3.6% while the overall unemployment rate for California was 4.7%. (*US Bureau of Labor Statistics*)

Weaknesses: Perhaps the single greatest threat facing California and the Bay Area economy, above pension costs and infrastructure needs, is the cost of homes. Excessive home prices and low inventory has not only driven up the cost of doing business by increasing wages and skills needed to compete for jobs, but also deprives the area of large numbers of lower- and mid-skilled workers. Excessive home values are good for homeowners but bad for prospective buyers, renters, and people looking to move into the region. Continued high housing costs could lead to loss of workforce for lower-paying jobs and ultimately a dependence on few selected industries in the region that could lead to hypersensitivity in the business cycle.

Long-term outlook: The long-term outlook for the Bay Area economy is stable. Job and population growth is expected to remain stable over the next several years. This should result in financial stability for the District as the majority of the operating revenues are derived from sales and property tax subsidies. The caveat to that stability is the growing likelihood of an end to

the current economic expansion. The current period of expansion has lasted eight years, which is nearly three years longer than average in the post-WWII period.

The trend of the District's ridership levels is also a concern going forward. Ridership has decreased recently with at least some of the losses attributable to transportation network companies (TNCs) such as Uber and Lyft. The service expansion that the District has implemented has countered some of that loss. While recent data show ridership levels stabilizing, the continued growth of TNCs will likely pose challenges for the District.

Long Term Financial Planning

Long-term financial planning at AC Transit is primarily accomplished via the Short Range Transportation Plan (SRTP) and the Regional Transportation Plan (RTP). The SRTP is a ten-year plan that is mandated by MTC to be updated every two years and adopted by the Board. The SRTP uses the most recent Adopted Annual Budget as the baseline for the period it covers. The Metropolitan Transportation Commission does the RTP for the region and it forecasts over a 25-30 year period. The RTP is updated every 4 years. The RTP prioritizes the transit infrastructure projects and transit services for the entire region.

Relevant Financial Policies

Financial policies for the District are the responsibility of the Board and remain in effect until amended by the Board. The District has four significant financial policies: (1) Accounting Policy, (2) Budget Policy, (3) Capital Projects Policy, and (4) Reserve Policy. The Accounting Policy addresses the District's method of accounting, audit schedule, standards of internal controls and audit committee designation. The Budget Policy provides the requirements for submission and approval of a budget and assigns responsibility for budgetary controls. The Capital Projects Policy establishes the process for review of capital projects by the GM and approval by the Board. The Reserve Policy establishes a comprehensive level of cash reserves for the District to withstand economic disruptions as well as unanticipated expenditures.

Major Initiatives

New Service Expansion

The District has implemented the majority of AC Go, its major service expansion plan, with central and southern Alameda County changes planned for March 2018. AC Go is funded by increased revenues from Alameda County Measure BB, a ½% sales tax increment which was enacted by voters in November 2014.

East Bay Bus Rapid Transit (BRT)

The BRT is the District's largest capital project with a total budget of \$213 million. BRT will bring better transit to one of the East Bay's most diverse corridors through a combination of dedicated transit lanes, level boarding, pre-payment, and other features that has led this technology to be described as "light rail on wheels." The project groundbreaking was in August 2016, and revenue service is planned for late 2019.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) has awarded a **Certificate of Achievement for Excellence in Financial Reporting** to the District for its CAFR for the fiscal years ended June 30, 1992 through 2016. GFOA also has presented a **Distinguished Budget Presentation Award** to the District for the fiscal year beginning July 1, 2016. The District has further demonstrated outstanding achievement in financial reporting by receipt of the **Certificate of Excellence for the Investment Policy** from the Association of Public Treasurers of the United States and Canada.

In order to be awarded a Certificate of Achievement, a governmental unit must establish an easily readable and efficiently organized CAFR, whose contents conform to program standards. Such reports must satisfy both Generally Accepted Accounting Principles (GAAP) and applicable legal requirements. A Certificate of Achievement is valid for the period of one year.

The Department of Finance believes the current report continues to conform to Certificate of Achievement Program requirements and submits the report to the GFOA with high expectations of receiving another award.

The preparation of the CAFR could not have been accomplished without the support of the Controller and the entire Finance Department staff. I also want to express our appreciation to other District departments for their assistance in this effort. Finally, I wish to thank the Board and the Finance and Audit Committee, for without their policy direction and authorization of Fiscal Policy No 308 "Accounting Policy", preparation of this report would not have been possible.

Respectfully Submitted,

Claudia Allen
Chief Financial Officer

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Alameda-Contra Costa Transit District
Oakland, California

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and fiduciary activities of Alameda-Contra Costa Transit District (the District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the AC Transit Pension Trust Fund, which represents the fiduciary activities of the District. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the AC Transit Pension Trust Fund, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the AC Transit Pension Trust Fund were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

(Continued)

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and fiduciary activities of the District, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of Changes in Employer's Net Pension Liability and Related Ratios, Schedule of Employer's Contributions, and Schedule of Funding Progress, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit for the year ended June 30, 2017 was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying Introductory Section, Other Supplementary Information for the year ended June 30, 2017, and Statistical Section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Other Supplementary Information for the year ended June 30, 2017 is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The Other Supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended June 30, 2017 and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Other Supplementary Information is fairly stated, in all material respects, in relation to the basic financial statements as a whole for the year ended June 30, 2017.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of the District as of and for the year ended June 30, 2016 (not presented herein), and have issued our report thereon dated December 13, 2016, which contained unmodified opinions on the respective financial statements of the business-type activities and fiduciary activities. The Comparative Schedules of Net Position, Comparative Schedules of Revenues, Expenses, and Changes in Net Position, Comparative Schedules of Cash Flows, and Comparative Schedules of Revenues, Expenses, and Changes in Net Position – Budgetary Basis (referred to collectively as “Comparative Schedules”) as of and for the year ended June 30, 2016, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2016 financial statements. The Comparative Schedules as of and for the year ended June 30, 2016, as listed in the table of contents, have been subjected to the auditing procedures applied in the audit of the 2016 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Comparative Schedules are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2016. The Introductory and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

The Introductory and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2017, on our consideration of the District’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District’s internal control over financial reporting and compliance.

Management Discussion and Analysis

Management's Discussion & Analysis

This discussion and analysis of the Alameda-Contra Costa Transit District's financial performance provides an overview of the District's activities for Fiscal Year 2017 with comparisons to the prior fiscal year.

Financial Highlights

- At June 30, 2017, total assets and deferred outflow of resources were \$655.5 million, a decrease of \$7.3 million, or 1 percent, compared to June 30, 2016, when it was \$662.8 million. Total current assets at June 30, 2017 were \$221.3 million, a decrease of \$9.7 million, or 4 percent, primarily related to a decrease in receivables at year end due to timing. Capital assets, net of accumulated depreciation increased by \$28.3 million or 9 percent, to \$348.7 million. Other Non-Current Assets remained stable at \$2.5 million. Deferred outflows decreased by \$25.9 million to \$83.0 million due to the net of investment gains and the amortization of investment losses from prior periods.
- At June 30, 2017, total liabilities and deferred inflow of resources were \$505.4 million, a decrease of \$4.3 million, or 1 percent, compared to June 30, 2016 when they were \$509.7 million. Total current liabilities increased by \$8.0 million over fiscal year 2016 when they were \$80.8 million primarily due to temporal increases in accounts payable and payroll liabilities at year end. At June 30, 2017 net pension liability was 308.0 million, a decrease of \$23.9 million, or 7 percent, over fiscal year 2016 when it was \$331.9 million. This change is primarily attributable to investment, and actuarial gains. Total other non-current liabilities increased by \$6.7 million, or 9 percent, from June 30, 2016 primarily due to growth in the other post-employment (OPEB) liabilities resulting from not fully funding the actuarially determined contribution (ADC) during the period, and an increase in paid time off (PTO) liabilities. The long term liability associated with the COPS decreased by \$3.9 million due to scheduled payments. The increase in deferred inflows of \$8.8 million is the product of the net activity of expected and actual experience as reflected in the pension GASB 68 actuarial study.
- For Fiscal Year 2017, operating revenues decreased by \$1.0 million, or 1 percent, to \$69.1 million. There were decreases in passenger fare revenues of \$2.8 million; offset by increases in contract services of \$1.6 million, or 15 percent, and in "other" operating revenues of \$0.2 million, or 6 percent. At June 30, 2016 operating revenues were \$70.1 million.
- In Fiscal Year 2017, total operating expenses were \$451.9 million, a decrease of \$1.8 million, or less than 1 percent, compared to \$453.7 million at June 30, 2016. Expenses increased in most categories with the exception of reductions in outside services of \$20.9 million due to reduced "Pass Thru" expenditures during the period, Insurance which decreased primarily due to a favorable PLPD actuarial study, and a reduction in depreciation expense of \$3.0 million. Year over year increases in expenses included salary and wages of \$17.9 million primarily due to a headcount increase of 140 in support of District initiatives along with CBA driven wage increases, Fringe benefits increased by \$15.4 million over fiscal year 2016 due to increases in all sub categories. Other expenses increased by \$4.9 million primarily due to an extraordinary increase of election expenses from Alameda County during the period.
- For Fiscal Year 2017, non-operating revenues were \$336.4 million, which is a decrease of \$12.9 million, or 4 percent, compared to Fiscal Year 2016 when it was \$349.3 million. Notable increases occurred in the categories property taxes of \$7.0 million, local funding of \$5.5 million, and local sales tax funding of \$3.1 million. Notable decreases occurred in state funding of \$22.0 million or 63 percent, due to diminished "Pass Thru" funds, a decrease of \$5.9 million in non-operating revenues from JPA and consortium mainly due to the state transit assistance (STA) funding cycle which had its apex in fiscal year 2016, and a net decrease federal funds of \$1.3 million or 20 percent.

- At June 30, 2017, net position was \$150.1 million, a decrease of \$3.0 million, or 2 percent, from June 30, 2016 when it was \$153.1 million. This 2017 decrease in net position, is the result of total revenue of \$388.1 million, combined with capital funds earned during the period of \$45.2 million, totaling \$433.3 million, over total expenses of \$436.3 million.

Overview of the Financial Statements

The Financial Section of this report presents the District's financial statements as two components: basic financial statements and notes to the financial statements. It also includes other supplemental information in addition to the basic financial statements.

Basic Financial Statements

The *Statement of Net Position* presents information about assets and liabilities with the difference between the two reported as *net position*. The change in net position over time is an indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Revenues, Expenses and Changes in Net Position* report shows the changes during the year and presents a comparison between operating revenues and operating expenses. Operating revenues and expenses are related to the District's principal business of providing bus transit services. Operating expenses include the cost of direct services to passengers, administrative expenses, contracted services and depreciation on capital assets. All other revenues and expenses not included in these categories are reported as non-operating.

The *Statement of Cash Flows* reports inflows and outflows of cash and is classified into four major components:

- *Cash flows from operating activities* which includes transactions and events reported as components of operating income in the statement of revenues, expenses and changes in net position.
- *Cash flows from non-capital financing activities* which include operating grant proceeds as well as operating subsidy payments from third parties and other non-operating items.
- *Cash flows from capital and related financing activities* which arise from the borrowing and repayment (principal and interest) of capital-related debt, the acquisition and construction of capital assets and the proceeds of capital grants and District contributions.
- *Cash flows from investing activities* which includes the proceeds from the sale of investments and receipt of interest. Outflows in this category include the purchase of investments.

Notes to the Financial Statements

Various notes provide additional information that is essential to a full understanding of the information provided in the basic financial statements. These are found immediately following the financial statements to which they refer.

Other Information

This report also presents certain required supplementary information in accordance with the requirements of GASB. In addition, supplementary information and associated notes concerning compliance with the District's annual budget appear immediately following the required supplementary information.

Assets:

At June 30, 2017, total assets and deferred outflow of resources were \$655.5 million, a decrease of \$7.3 million, or 1 percent, compared to June 30, 2016, when it was \$662.8 million. Current assets at June 30, 2017 were \$221.3 million, a decrease of \$9.7 million, or 4 percent, primarily due to a decrease in receivables, combined with a slight decrease in cash, due to timing, at year end. Capital assets, net of accumulated depreciation increased by \$28.3 million, or 9 percent, to \$348.7 million, primarily due to asset additions. Other Non-Current Assets remained stable at \$2.5 million. Deferred outflows decreased by \$25.9 million to \$83.0 million. The change in this number is the product of changes in actuarial assumptions, and the difference between actuarially projected and actual earnings of pension investments.

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2017

Liabilities:

At June 30, 2017, total liabilities and deferred inflows of resources were \$504.8 million, a decrease of \$4.9 million, or 1 percent, compared to June 30, 2016 when they were \$509.7 million. Total current liabilities at June 30, 2017 were \$88.3 million an increase of \$7.5 million over June 30, 2016 when it was \$80.8 million. Several factors contributed to this net result, including temporal net changes in accounts payable of \$5.9 million, payroll and fringe related liabilities of \$6.5 million, with the exception of a \$1.6 million increase in unearned revenue primarily due to the receipt of cap and trade funds in advance of expenditure. These increases were offset by net decreases in short term workers comp and PLPD liabilities of \$6.1 million due to favorable claims experience as reflected in the related actuarial studies.

Total other non-current liabilities are \$405.9 million, a decrease of \$21.2 million or 5 percent, from June 30, 2016 when it was \$427.1 million. This is primarily due to an decrease net pension liability of \$23.9 million due to the net of assumption changes, along with actuarial gains and investment returns, offset by increases in PTO balances of \$1.4 million due to wage and employee headcount increases, net increase in claims liabilities of \$0.9 due to actuarial results, and finally increases in OPEB liabilities of \$4.3 million due to a slight change in census information and not fully funding the actuarially defined contribution.

The long term portion of the COPS, liability is \$13.4 million at June 30, 2017, a decrease of \$3.9 million over the June 30, 2016 balance when the liability was \$17.3 million, mainly due to normal scheduled payments. The change in deferred inflows of \$8.1 million reflects the net of expected and actual actuarial experience related to the pension plan.

Net Position:

At June 30, 2017, net position was \$150.7 million, a decrease of \$2.4 million, or 2 percent, from June 30, 2016 when it was \$153.1 million. The decrease in net position is the result of total revenue of \$388.1 million, combined with capital funds earned during the period of \$45.2 million, totaling \$433.3 million, over total expenses of \$436.9 million. It can be noted that pass through funds received and expended during the period decreased by \$21.6 million overall, in both revenue, and expense categories. This was comprised of an increase of \$1.7 million in local pass through, a decrease of \$21.3 million in state pass through, and a decrease in federal pass through of \$1.6 million. Unrestricted net position was (\$209.9) million and (\$171.9) million at June 30, 2017 and June 30, 2016, respectively. The negative balances can be attributed to the net pension liability which was \$307.9 million and \$331.9 million at June 30, 2017 and 2016.

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2017

Operating Revenue:

For Fiscal Year 2017, operating revenues decreased by \$1.0 million, or 1 percent, to \$69.01 million, over June 30, 2016 when they were \$70.1 million. While passenger fares decreased overall by \$2.8 million over 2016, this was offset by an increase in contract fares of \$1.6 million and other revenue of \$0.2 million, leaving a slight net decrease in other operating revenues to arrive at this result. While there were no changes to fare structure, policy, or pricing, during the period, there is an industry wide trend towards decreasing passenger fares which we appear to be a part of.

Alameda-Contra Costa Transit District
Comparison of Operating Revenue
Fiscal Year 2016/17 vs. Fiscal Year 2015/16

Non-Operating Revenue:

For fiscal year 2017, non-operating revenues were \$321.5 million, which is a net decrease of \$7.1 million, or 2 percent, compared to fiscal year 2016 when it was \$328.6 million. This overall net decrease included year over year increases in Property Taxes and local sources of \$15.6 million, offset by a reduction in pass thru revenues from federal, state, and local sources of \$21.6 million. "Pass Thru" revenues and expenditures are generated from projects belonging to other agencies, which may directly or indirectly benefit the District's operations.

At fiscal year end 2017 property taxes were \$124.5 million an increase of \$7.0 million or 6 percent, over fiscal year 2016, indicating a sustained strong local real estate market. Local sales tax revenues went from \$97.3 million at June 30, 2016 to \$100.4 million as of June 30, 2017, an increase of \$3.1 million, or 3 percent. These increases included Measure B and AB1107 funds of \$0.9 million each as well as increases in the other categories in this group.

State revenues, which includes state transit assistance (STA), state pass thru funds, and AB2972 funds, decreased by \$22.0 million, or -63 percent, over June 30, 2016, when it was \$34.7 million. In this category state pass thru funds decreased by 21.3 million due to the close of the funding cycle on the Line 51 corridor improvements project and coming to the end of the state funds designated for the Trans Bay Joint power authority project. Additionally state transit assistance (STA) funds decreased by -\$0.6 million, which was anticipated as part of its three funding cycle. AB2972 funds remained stable at \$2.2 million.

Federal operating funds decreased by \$1.3 million, or 20 percent, over June 30, 2016 when they were \$6.5 million. In fiscal year 2017 federal pass thru funds decreased by \$1.6 million, offset by an increase in ADA related subsidies of \$1.7 million, and a decrease of \$1.1 million in federal operating assistance.

As it relates to the non-operating revenue of JPA and consortium, the significant issue on this line item, as it has been for the past many years, is where the District stands in the current fiscal year with the 3 year State Transit Assistance (STA) funding cycle. In year one of this cycle we report higher revenues which then subside in the remaining years of this funding cycle. We are currently in year 2.

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2017

When comparing the “Composition of Non-Operating Revenue” pie charts from Fiscal Year 2015/16 (below) to Fiscal Year 2016/17 (above) there are shifts in composition between these fiscal years. These include property taxes and local funds which increased 3 percent and 2 percent, respectively and local sales tax and state funding which decreased 1 percent and 6 percent, respectively. Federal funding remained steady at 2 percent of total non-operating revenues.

Expense Highlights

In Fiscal Year 2017, total operating expenses were \$451.9 million, a decrease of \$1.8 million or less than 1 percent compared to \$453.7 million in Fiscal Year 2016.

Increases in operating expense categories include operator wages of \$10.7 million due to an increase in bus operators of 75, (based upon pay check count) in support of District service initiatives, scheduling adjustments, and a contractual wage increase. Other salary and wages increased by \$7.2 million due to an increase in headcount of 65 as well as and wage increases ranging from 3.25 to 5.25 percent at the beginning of the period.

Fringe benefits increased by \$15.4 million over June 30, 2016, due to increases in pension of \$4.8 million primarily driven by increased contributions, PTO of \$3.9 million due to, timing, raises, and increased headcount, increase in medical, dental, and related insurance premiums of \$3.1 million, OPEB and workers comp \$1.1 million each, as well as FICA of \$1.4 million, and other fringe benefits of \$0.6 million

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2017

Depreciation decreased by \$3.0 million due to certain asset classes reaching full depreciation. Fuel and Oil increased slightly by \$0.7 million which may signal a halt to its multiyear downward trend. Materials and Supplies consumption had a mild increase of \$0.6 million, or 5 percent, over 2016 with no single subcomponent responsible for the change.

Outside services decreased by \$21.0 million over fiscal year 2016 when it was \$57.5 million. Pass thru expenditures which are exclusively reported in this object class were \$9.5 million in 2017, or \$22.5 million less than fiscal 2016 when they were \$32.0 million. Year over year increases in this outside services category include contract maintenance services and temporary services of \$0.5 million each, as well as regional transit pass fees of \$0.4 million, outside legal of \$0.1 offset slightly by a decrease in \$0.2 million in security services, with the net of the other outside services line items making up the remaining year over year difference in this category.

In fiscal year 2017 insurance is \$1.4 million, a decrease of \$18.4 million over 2016, or 93 percent, when it was \$19.7 million. While the cost of policy coverage increased by \$0.4 million during the period, the self-insurance component of this category had a major decrease due to favorable claims development. This was reflected in the current year actuarial report. Further, claims payouts during the period were lower than the funds provisioned for them, adding to this overall decrease. The current favorable actuarial study fully reverses the effects the prior year's unfavorable actuarial study for this category.

The expenses of JPA and consortium category includes AC Transit's share of Paratransit Consortium, Dumbarton Bridge, and other smaller services expenditures. During the period, the expense to run these services increased by \$1.0 million or 3 percent. When netting the revenues from this category with the expenses during fiscal year 2016, which was our 1st year of this STA funding cycle we reported a year over year reduction in net expense of JPA and consortium of \$5.8 million. During fiscal year 2017, the second year of the STA funding cycle, we report an increase of net expenses of JPA and consortium of \$6.8 million.

In fiscal year 2017 the category of "other" expenses is \$11.8 million, an increase of \$4.9 million over fiscal year 2016 when it was \$7.0 million. While fiscal year 2016 did not include election expenses in this category, 2017 did to an exceptional degree. The last time the District paid election expenses was in fiscal year 2015 when it was \$1.6 million. In fiscal year 2017 the District paid \$4.2 million due to decisions made by Alameda County. Other notable increases in this category include utilities of \$0.3 million and the combination of use tax and dues of \$0.3 offset by a reduction in marketing expenses of \$0.2 million the net changes in the balance of accounts that compose this line item provide for the remaining difference.

Capital Program

The District had capital assets net of depreciation of \$348.7 million and \$320.4 million as of June 30, 2017 and 2016, an increase of \$28.3 million. The District received capital contributions of \$45.2 million in Fiscal Year 2017 compared to \$51.7 million in Fiscal Year 2016, a decrease of \$6.5 million, or 13 percent. In fiscal year 2017 capital contributions came from the following sources, federal \$31.4 million, and local \$13.8 million. On-going capital investment is crucial to an asset intensive industry such as ours.

Some of the capital acquisitions during the period included:

- Revenue Vehicle Replacement (\$20.5 million)
- Bus Rapid Transit program (\$18.2 million)
- CAD/AVL System (\$2.6 million)
- Maintenance Facilities, and building rehabilitation (\$6.8 million)
- Information Services/Communications (\$2.0 million)

Additional information concerning the District's capital assets and capital assistance can be found in Notes 4 and 6, respectively, of the Notes to the Financial Statements.

Debt

On February 1, 2012 the District issued Refunding Certificates of Participation Series 2012 to take advantage of lower interest rates. The proceeds from the issuance, \$9.8 million, were used to refund the 2001 COPS. At June 30, 2017, the outstanding principal component of the annual lease payment was \$3.5 million. The District plans to repay the obligation over six years, which will conclude by August 2018.

In December 2007, the District issued a \$13.5 million COPS to finance its new Finance Human Resources computer system (FHR Project). The COPS are secured by specified capital assets. At June 30, 2017, the principal component of the annual lease payment was \$1.6 million and the District plans to repay the obligation over ten years, which will conclude by August 2017.

In February 2009, the District issued a \$15.0 million COPS to help fund the July 2008 purchase of property located at 66th avenue in East Oakland. At June 30, 2017, the principal component of the annual lease payment was \$12.3 million. The COPS are secured by specified capital assets and the District plans to repay the obligation over twenty-five years, which will conclude by August 2034.

Additional information on the District's long-term debt can be found in note (8) to the basic financial statements

Subsequent Events

- Upgrades of existing PeopleSoft Human Capital Management, and Financials/Supply Chain, have gone live as scheduled in July 2017.
 - Fares increases went into effect as scheduled in July 2017
 - The final payment on the 2007 COPS was made in August 2017 in accord with the associated amortization schedule.
 - As the Bus Rapid Transit timeline has been extended, and expected completion is now slated for December 2019. In support of this expanded timeframe the District anticipates securing new funding via debt issuance and has issued an RFP for financial advisor services. The exact amount of the debt issuance is to be determined, but preliminary estimates are coming in around \$20 million.
 - In November 2016, the voters of Alameda and Contra Costa counties approved Measure C1 a District parcel tax which starts in 2019. This will replace the current Measure VV which sunsets in 2019. The tax will remain at \$96 per parcel, similar to Measure VV.
-

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of the District's finances and to demonstrate accountability for the funds the District receives. If you have questions about this report or need additional financial information, please contact the Alameda-Contra Costa Transit District, attn: Chief Financial Officer, 1600 Franklin St. Oakland, California 94612.

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 1 – THE FINANCIAL REPORTING ENTITY

Organization: The Alameda-Contra Costa Transit District (the District) is a political subdivision of the State of California established in 1956 and is subject to Transit District Law as codified in the California Public Utilities Code.

Reporting Entity: The District follows the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, as amended. This statement sets forth accountability of a government's elected officials to their constituents as the basic criteria for inclusion of an organization in a governmental reporting entity. The governmental reporting entity consists of the District (primary government) and organizations for which the District is financially accountable. Financial accountability is defined as the appointment of a voting majority of the component unit's board, and (i) either the District's ability to impose its will on the organization or (ii) the potential for the organization to provide a financial benefit to, or impose a financial burden on the District.

The basic financial statements include legally separate component units, which are so financially intertwined with the District that they are, in substance, part of the District and are therefore considered blended component units. The component units discussed below are included in the District's reporting entity because of the significance of their operational or financial relationships with the District.

For financial reporting purposes, the District's basic financial statements include all financial activities that are controlled by or are dependent upon actions taken by the District's Board of Directors. As such, the basic financial statements include the financial activities of the District's Special Transit Service Districts (Special Districts) No. 1 and No. 2 and other areas in which the District has contracted to provide transit service. Because these districts are not legally separate entities, they are not considered component units under GASB Statement No. 14. Special District No. 1 was the designation used from the creation of the District for its original territory, consisting of the cities and unincorporated areas from roughly Richmond and San Pablo through Hayward. Special District No. 2 was created by annexation agreements among the cities of Fremont and Newark, the County of Alameda and the District and ratified by a subsequent special election in November 1974 in Fremont and Newark. All property within the Special Districts is subject to taxes that may be levied by the District.

In May 1988, the District created AC Transit Financing Corporation (the Corporation), a nonprofit public benefit corporation incorporated in the State of California under the guidelines of the Nonprofit Public Benefit Corporation Law. Legally separate from the District, the Corporation is blended with the primary government because its sole purpose is to provide financial assistance to the District by financing, refinancing, acquiring, constructing, improving, leasing and selling buildings, equipment, land, building improvements, and other public improvements.

The financial activities of the Alameda-Contra Costa Transit District Employees' Pension Plan (the Plan) are fiduciary in the basic financial statements because the Plan exclusively serves the employees of the District. The financial position and changes in financial position of the Plan are reported on a calendar year basis.

The Plan is administered by the five-member Retirement Board made up of two representatives of the general public selected by the District's Board, two District employees who are elected officials of the Amalgamated Transit Union, Local 192 (ATU) and one District employee selected by the District's Board of Directors from the employees who are not represented by ATU. The Retirement Board has administrative and fiduciary responsibility over the Plan. The Retirement Board utilizes a third-party banking institution as custodian over the Plan's assets.

Separate financial statements for the Corporation and the Plan may be obtained from the District Controller.

(Continued)

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The accounting policies of the District conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The basic financial statements provide information about the District's enterprise fund and the pension trust fund. Separate statements for each fund category – enterprise and fiduciary - are presented. The basic financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. On an accrual basis, revenues from property taxes are recognized in the fiscal year for which the taxes are levied; revenue from sales taxes are recognized in the fiscal year when the underlying exchange occurs; revenue from grants is recognized in the fiscal year in which all eligibility requirements have been satisfied; and revenue from investments is recognized when earned.

Enterprise Fund (proprietary fund): The accounts of the District are organized on the basis of a proprietary fund-type, specifically an enterprise fund. The activities of this fund are accounted for with a set of self-balancing accounts that comprises the District's assets, deferred outflows, liabilities, deferred inflows and net position, revenues and expenses. Enterprise funds account for activities (i) that are financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity; or (ii) that are required by laws or regulations that the activity's cost of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues; or (iii) with pricing policies that establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service).

Enterprise funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with an enterprise fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund are charges to passengers for services provided. Operating expenses include the cost of services, administrative expenses, and depreciation on capital assets and equipment. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Pension Trust Fund: The Pension Trust Fund accounts for the accumulated resources to be used for retirement annuity payments to all members of the Plan.

Cash and Cash Equivalents: For purposes of the statement of cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Any restricted cash and investments used to service debt principal and interest payments of the District would not be considered cash equivalents.

Investments: The District applies the provisions of GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, which required governmental entities to report certain investments at fair value in the statement of net position and the statement of plan net position and recognize the corresponding change in fair value of investments in the year in which the change occurred. In accordance with GASB Statement No. 31, the District has reported its investments at fair value based on quoted market information obtained from fiscal agents or other sources.

Restricted for Certificates of Participation: In connection with the 2007 Certificates of Participation, the District was required to establish and maintain a reserve fund in the amount of \$1.35 million. Pursuant to a trust agreement by and between the Corporation, the District, and the trustee, the restricted assets in the fund can only be used to service lease payments on the outstanding certificates of participation.

(Continued)

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In connection with the 2009A Certificates of Participation, the District was required to establish and maintain a reserve fund in the amount of \$1.138 million. Pursuant to a trust agreement by and between the Corporation, the District, and the trustee, the restricted assets in the fund can only be used to service lease payments on the outstanding certificates of participation.

The reserves are reported as non-current.

Pension Plan: The District's noncontributory pension plan provides retirement benefits for all qualifying union and non-union employees. The District's annual contribution to fund the AC Transit Employees' Retirement Plan (Plan) is actuarially determined based on a percentage of gross payroll, which includes the normal cost of the Plan plus amortization of prior service costs over a period of not more than thirty years. Cash and investments in the Plan are restricted by law to provide for the future payment of pension benefits and related expenses. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Inventories: Inventories consist primarily of bus replacement parts and fuel and are stated at average cost. Inventory usages are charged to expense, on a weighted-average basis, at the time that individual items are withdrawn from inventory.

Capital Assets: Capital assets are stated at cost and are depreciated using the straight-line method over the estimated useful lives of the assets, as follows:

Building, structures and other improvements	30 years
Revenue equipment	12 years
Service vehicles and other equipment	3 to 10 years
Engines and transmissions	5 years
Revenue vehicles (Mini Vans)	7 years

The District's policy is to capitalize all property and equipment with a cost greater than \$5,000 and a useful life of more than one year.

Operating Assistance: Grants are accounted for as non-operating revenue as soon as all eligibility requirements have been met.

Contract Services: The District entered in to an agreement with San Francisco Bay Area Rapid Transit District's (BART) in which payments are allocated to the District from BART for feeder services to facilitate the coordination of transit service and encourage transit use and improve the quality of transit service. See Note 14 for related party disclosures on the Consortium.

Property Taxes, Collection and Maximum Rates: The State of California (State) Constitution Article XIII A provides that the maximum basic property tax rate on any given property may not exceed 1% of its assessed value unless an additional amount for general obligation debt has been approved by voters. Assessed value is calculated at 100% of market value as defined by Article XIII A and may be increased by no more than 2% per year unless the property is sold, transferred or improved. The State Legislature has determined the method of distribution of receipts of the tax levy among the counties, cities, school districts and other districts, including the District.

(Continued)

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Alameda and Contra Costa counties assess properties, bill for, collect and distribute property taxes. Property taxes are recorded as non-operating revenue (including secured delinquent property taxes) net of estimated uncollectible amounts, in the fiscal year of levy.

Assessed values are determined annually by the Assessor's Offices of Alameda and Contra Costa counties on January 1, and become a lien on the real properties at January 1. The levy date for secured and unsecured properties is July 1 of each year. Secured taxes are due November 1 and February 1 and are delinquent if not paid by December 10 and April 10, respectively. Unsecured property tax is due on July 1 and becomes delinquent after August 31.

The District accrues delinquent property taxes from Contra Costa County. The cumulative amount of delinquent taxes uncollected for the current and prior years has been recorded as a receivable. The District, through the County of Alameda (County), is under the Teeter plan whereby, delinquent taxes are received by the District from the County's own funds in the event that delinquent taxes are not received by a certain due date. In return, the District forgoes the penalties and interests that would accrue on these delinquent property taxes.

On November 30, 2004, the voters approved Measure BB, which superseded the Measure AA parcel tax. Measure BB increased the amount of annual parcel tax to \$48 per year and the term of the tax to 10 years from the date of implementation. The tax became effective on July 1, 2005 and was to terminate on June 30, 2015. However, on November 4, 2008, the voters approved Measure VV, which supersedes the Measure BB parcel tax. Measure VV became effective July 1, 2009 and increased the annual parcel tax to \$96 per parcel. Measure VV is effective through June 30, 2019. The revenue derived from this measure is to be used to sustain public transportation services provided by the District in Special District No. 1. The District received approximately \$30 million in Measure VV taxes during the year ended June 30, 2017.

Compensated Absences: The personnel policies of the District generally allow employees to accrue up to 240 hours of vacation and 140 days of sick leave. Unused accrued vacation is paid to the employee upon termination from District employment. Unused accrued, vested sick leave is paid, upon retirement, to those employees with ten or more years of District service.

Capital Contributions: The District receives grants from the Federal Transit Administration (FTA) and state and local transportation funds for the acquisition of buses and other equipment and improvements. Capital contributions are recorded as revenues after net non-operating revenues and the cost of the related assets is included in capital assets.

Net Position: The financial statements utilize a net position presentation. Net position is subdivided into net investment in capital assets, restricted and unrestricted.

- Net investment in capital assets - This category groups all capital assets into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category.
- Restricted net position - This category represents restrictions on net position externally imposed by creditors or imposed by law through constitutional provisions or enabling legislation. At June 30, 2017, the District has restricted net position in the amount of \$2.1 million related to the 2007 and 2009 Certificates of Participation (COPS) and \$26.9 million for the future acquisition of buses (See Note 11) and other capital expenditures. The net position restricted for debt service is maintained in a reserve fund to service lease payments on the outstanding 2007 and 2009 COPS.
- Unrestricted net position - This category represents net position of the District, not restricted for any projects or other purposes.

(Continued)

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates: Management has made estimates and assumptions relating to the reporting of assets and liabilities and revenues and expenses to prepare the basic financial statements in conformity with Generally Accepted Accounting Principles. Actual results could differ from those estimates.

Deferred Outflows/Inflows of Resources: Deferred outflows of resources represent a consumption of net position that applies to a future period(s). Deferred inflows of resources represent an acquisition of net position that applies to a future period(s). These amounts will not be recognized as expense or revenue until the applicable period. The District's activities are related to recognition of changes in its defined benefit plan's net pension liability that will be amortized in future periods.

Recent Accounting Pronouncements Adopted:

- GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, issued on June 2015. The provisions of this Statement are effective for periods beginning after June 15, 2016. The objective of this Statement is to improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. The adoption of this standard had no effect on the District's net position or changes therein.
- GASB Statement No. 77, *Tax Abatement Disclosures*, issued on August 2015. The provisions of this Statement are effective for periods beginning after December 15, 2015. This Statement establishes financial reporting standards for tax abatement agreements entered into by state and local governments. The disclosures required by this Statement encompass tax abatements resulting from both 1 (a) agreements that are entered into by the reporting government and (b) agreements that are entered into by other governments and that reduce the reporting government's tax revenues. The provisions of this Statement should be applied to all state and local governments subject to such tax abatement agreements. The adoption of this statement had no effect on the District's net position or change therein.
- GASB Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*, issued December 2015. The provisions of this Statement are effective for periods beginning after December 15, 2015. The objective of this Statement is to address a practice issue regarding the scope and applicability of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. The adoption of this standard had no effect on the District's net position or changes therein.
- GASB Statement No. 80, *Blending Requirements for Certain Component Units – An Amendment of GASB Statement No. 14*, issued January 2016. The provisions of this Statement are effective for periods beginning after June 15, 2016. The objective of this Statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This Statement amends the blending requirements established in paragraph 53 of Statement No. 14, *The Financial Reporting Entity*, as amended. The adoption of this standard had no effect on the District's net position or changes therein.

(Continued)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- GASB Statement No. 82, *Pension Issues—an amendment of GASB Statements No. 67, No. 68, and No. 73*, issued March 2016. The provisions of this Statement are effective for periods beginning after June 15, 2016. The objective of this Statement is to address issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The adoption of this standard had no effect on the District's net position or changes therein.

NOTE 3 – CASH AND INVESTMENTS

Investment Policy: The District's investment policy, which is more restrictive than required by the California Government Code, stipulates the type, maturity limit, and diversification of securities held by the District. The objectives of the policy, in order of priority, are compliance with applicable laws, preservation of capital, liquidity to meet required cash demands and maximization of income. The District's investment policy does not permit investments in medium term notes, municipal securities or reverse repurchase agreements, which are permitted by the California Government Code. In accordance with the District's investment policy, the District may invest in the following types of investments, subject to certain restrictions, such as rating quality or maximum percentages of the portfolio:

- Repurchase agreements
- Securities of U. S government and its agencies
- California Local Agency Investment Fund
- Negotiable certificates of deposit
- Commercial paper
- Bankers' acceptances
- Money market accounts (Non U.S. government)

The Plan's investments are invested pursuant to investment policy guidelines established by the Retirement Board. The long-term asset allocation of the investment portfolio is to have 28% of the portfolio invested in domestic equities, 17% in international equities, 32% in domestic fixed income securities, 12% in global asset allocation funds, 5% in real estate, 5% in private debt, and 1% in cash. The portfolio is managed by investment managers hired by the Retirement Board. The Retirement Board utilizes both active and passive management in the domestic equity portfolio. The Retirement Board has chosen to manage the investment risks described by GASB Statement No. 40 by requiring investment managers to abide by certain guidelines that are tailored to the portfolio that the manager manages. These guidelines specify the amount of credit, interest, and foreign currency risk that a manager may take and the performance objective of the portfolio.

The allocation to global asset allocation funds allow the investment managers to adjust the portfolio managed based on which asset classes (primarily stocks and bonds) they consider desirable. The specific asset allocation decisions are made by the investment managers within their investment policy limits. Global asset allocation results in the placement of the asset allocation decision on the investment manager, rather than the Retirement Board.

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 3 – CASH AND INVESTMENTS (Continued)

Presentation: At June 30, 2017 (December 31, 2016 for the Plan), the District's cash and investments consisted of the following (in thousands):

Cash and cash equivalents	\$ 121,624
Investments	<u>627,315</u>
Total	<u>\$ 748,939</u>
Reported in the Enterprise Fund as:	
Cash and cash equivalents	\$ 92,237
Restricted – current cash and cash equivalents	26,899
Restricted – noncurrent cash and cash equivalents	2,488
Investments	31,583
Reported in the Pension Trust Fund as:	
Investments restricted for payment of accrued pension costs (at December 31, 2016)	<u>595,732</u>
Total	<u>\$ 748,939</u>

Fair Value: The District categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The District has the following recurring fair value measurements as of June 30, 2017:

- U.S. Treasury bills and notes of \$30 million are based on quoted market prices in active markets for identical assets using the market approach (Level 1 inputs).
- Negotiable certificates of deposit of \$1.6 million are based on quoted market prices of similar securities with similar due dates using the market approach (Level 2 inputs).

The fair value of mutual funds, some U.S. equity securities, and some international equity securities held by the Plan are based on quoted prices in active markets using the market approach. (Level 1 inputs) The fair value of short term investment funds, pooled investments, some U.S. equity securities, and some international equity securities held by the Plan are based on pricing vendors using matrix pricing. (Level 2 inputs)

	<u>Fair Value Measurements Using</u>		
	<u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>	<u>Total</u>
Plan Investments:			
Short term investment funds	\$ -	\$ 4,847	\$ 4,847
Mutual funds	38,892	-	38,892
Pooled investments	-	183,595	183,595
U.S. equity securities	70,048	118,812	188,860
International equity securities	<u>58,748</u>	<u>64,618</u>	<u>123,366</u>
	<u>\$ 167,688</u>	<u>\$ 371,872</u>	<u>\$ 539,560</u>

(Continued)

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 3 – CASH AND INVESTMENTS (Continued)

Plan Investments Measure at Net Asset Value (NAV):

	<u>Balance</u>	<u>Unfunded Commitments</u>	<u>Redemption</u>
Fixed income	\$ 24,559	\$ 4,351	Not eligible for redemption
Real estate	<u>31,613</u>	<u>3,333</u>	Quarterly redemption with 45-60 day notice
	<u>\$ 56,172</u>		

Fixed Income – The fixed income portfolio consists of investments in two funds that make direct loans to companies. These funds are valued at the net asset value of the units held at the end of the period based upon the fair value of the underlying investments. These funds are not eligible for redemption but rather distribute proceeds over the funds' lifespans.

Real Estate – The primary objective of the real estate portfolio is income and appreciation. The real estate portfolio consists of investments in four commingled funds. These funds invest primarily in U.S. commercial real estate (office, industrial, retail, multi-family, and other). These funds are structured as open-end commingled funds and closed-end limited partnerships. The fair value of the investments in each fund is determined using third-party appraisals or internal valuations. For the two open-end funds, distribution of income is made quarterly and redemptions can be made from these funds on a quarterly basis with 45-60 days' notice. Under certain conditions, the fund manager may not allow redemptions from the open-end funds. The two closed-end limited partnerships pay distributions of income and investment sale proceeds at the manager's discretion. They do not allow client-directed redemptions.

Enterprise Fund – Specific Risks: As of June 30, 2017, the District had the following money market accounts, which are classified as cash equivalents on the statement of net position (amounts are in thousands):

<u>Investment Type</u>	<u>Fair Value</u>	<u>Standard & Poor's Rating</u>	<u>Investment Maturities Less Than One year</u>
Money market accounts	\$ 94,715	Aaa	\$ 94,715

Interest Rate Risk: The District has limited exposure to interest rate risk due to its liquidity needs to meet cash flow demand requirements. All of its investments have a remaining maturity at date of purchase of eighteen months or less. None of the District's investments are highly sensitive to interest rate changes.

Credit Risk: The District's credit rating risk is governed by the California Government Code 53601 which limits investments in money market accounts to the highest ranking attained by the rating agency which is Aaa. The District had investments in money market accounts. There are no credit limits on the securities of U.S. Treasury since these investments are backed by the full faith and credit of the United States government.

Concentration of Credit Risk: The District manages this risk by requiring that no more than 20% of its total investment portfolio (with the exception of securities of the U.S. Treasury or U. S. government agencies) be invested in a single security type or with a single financial institution. Disclosure requirements state that any investments in a single security type or held with a single financial institution that are greater than 5% of the District's investments must be disclosed, except for investments in external pools and mutual funds. In fiscal year 2017, the District had \$80.0 million of its cash equivalents and investments invested with Wells Fargo, with \$74.4 million of its cash equivalents in Secured Institutional Money Market accounts.

(Continued)

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 3 – CASH AND INVESTMENTS (Continued)

Custodial Credit Risk: Custodial credit risk for deposits is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The California Government Code requires California banks and savings and loan associations to secure governmental deposits by pledging government securities as collateral. The market value of pledged securities must equal at least 110% of the District's deposits. California law also allows financial institutions to secure governmental deposits by pledging first trust deed mortgage notes having a value of 150% of the District's total deposits. Such collateral is considered to be held in the District's name.

As of June 30, 2017, the book value of the District's cash and cash equivalents with local banks was \$1.8 million. As of June 30, 2017, approximately \$12,000 of the District's bank balance was exposed to custodial credit risk, because it was uncollateralized beyond the FDIC insurance of \$250,000.

Pension Trust Fund – Specific Risks

Interest Rate Risk - For the Plan, interest rate risk is managed through the duration of its fixed income securities. Bond prices are highly sensitive to the movement of interest rates. A decline in interest rates will tend to increase bond prices while an increase in rates will depress prices. Duration is a measure of interest rate risk with a higher duration signifying greater price volatility in response to a change in interest rates. As of December 31, 2016, the Plan had the following investments in fixed income funds. (Amounts are in thousands, Duration in years)

<u>Fund</u>	<u>Amount</u>	<u>Duration</u>
SSgA Aggregate Bond Index Fund	\$ 114.6	5.9
Loomis, Sayles Credit Asset Fund	37.6	4.4
PIMCO Diversified Income Fund	38.9	5.4
Investec Emerging Market Debt Fund	31.4	5.8
Park Square	12.5	0.5
Crescent	<u>12.0</u>	2.5
Total fixed income funds	<u>\$ 247.0</u>	

Credit Risk - For the Plan, fixed income assets are invested in two pooled investment vehicles and with an outside money manager. As of December 31, 2016, \$4.8 million was invested in a short term pooled investment fund managed by State Street Corporation. This fund is not rated.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of the Plan's investment in a single issuer. As of December 31, 2016, the Plan had no investments in a single issuer that equaled or exceeded 5% of the Plan's net position or the Plan's total investments.

Foreign Currency Risk - Foreign currency risk is the risk that the changes in foreign exchange rates will affect the fair value of an investment denominated in a foreign currency. The Plan has, or could have, exposure to foreign currencies through its investment in several commingled investments. As of December 31, 2016, investments in international funds totaled \$132.4 million. As of December 31, 2016, the Plan had no direct exposure to foreign currency risk.

NOTE 5 – INTERFUND RECEIVABLES/PAYABLES

The Enterprise Fund in the accompanying basic financial statements is reported as of June 30, 2017 and the Pension Trust Fund is reported as of December 31, 2016; therefore, interfund payables and receivables do not equal. Interfund receivables and payables arise due to the following two reasons:

First, the timing of reimbursements from the Pension Trust Fund for administration costs and retiree benefits payments made by the District. At June 30, 2017 and December 31, 2016, the Pension Trust Fund had a payable from the Enterprise Fund of \$4.5 million and \$4.4 million, respectively, for these administration costs and retiree benefits payments made by the District.

Second, payments to the Pension Trust Fund for contributions based on covered payroll. At June 30, 2017 and December 31, 2016, the Pension Trust Fund had a receivable from the Enterprise Fund of \$5.7 million and \$4 million, respectively, for contributions to be made by the Enterprise Fund to the Pension Trust Fund.

NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 6 – CAPITAL ASSISTANCE

The District has 19 grant contracts in process with the FTA that provide federal funds for the acquisition of buses, other equipment and improvements. Under the terms of the grants, proceeds from equipment sold or retired are refundable to the federal government in proportion to the original federal capital grant funds used in the purchase. The District has also received allocations of funds generated from net bridge toll revenues of the San Francisco-Oakland Bay Bridge and from PTMISEA grants, see Note 11. These funds are received under provisions of the California Streets and Highways Code and are allocated based on claims approved by the MTC. These grants are summarized for the year ended June 30, 2017 as follows (in thousands):

Federal grants	\$ 31,595
State and local grants	<u>13,560</u>
	<u>\$ 45,155</u>

NOTE 7 – OPERATING ASSISTANCE

State and Local Operating Assistance: The Transportation Development Act (TDA) creates in each local jurisdiction a Local Transportation Fund that is funded by a 1/4 cent from the retail sales tax collected statewide. The State Board of Equalization returns these funds to the local jurisdiction according to the amount of sales taxes collected in that jurisdiction. TDA funds are allocated to the District from Alameda and Contra Costa counties to meet, in part, the District's operating requirements. The allocation is based on population within the District.

Supplementary service revenues (AB 2972) are formula allocated funds that are passed to the District through the Oakland Unified School District (OUSD) for OUSD's home to school service program.

Welfare to work grant funding is provided by the State to match the federal welfare to work program that is used to fund the District's Job Access and Reverse Commute program. The welfare to work grant is funded based on the population within a local area that are below the poverty level and comprise CalWORKS recipients. The Job Access and Reverse Commute program provides transportation to key low-income neighborhoods, homeless centers and targeted work centers particularly during evening, night and weekend hours.

Below is a summary of state and local operating assistance for the year ended June 30, 2017 (in thousands):

Local funds:	
Transportation Development Act	\$ 63,390
Regional Measure 2	<u>14,937</u>
	<u>\$ 78,327</u>
State operating assistance:	
Operating revenues	\$ 7,347
Supplementary service/Welfare to work	2,225
Pass thru	<u>3,127</u>
	<u>\$ 12,699</u>

(Continued)

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 7 – OPERATING ASSISTANCE (Continued)

Local Sales Tax: The local sales tax assistance (AB 1107) is derived from the one-half percent retail tax imposed on the three BART counties (Alameda, Contra Costa and San Francisco). Of the total amount collected, 75% is a direct BART subsidy with the District and the San Francisco Municipal Railway System (MUNI) sharing the remaining 25% equally.

In 1987, the District began receiving local sales tax revenue under Measure B. Approved by the voters of Alameda County, Measure B provides for the collection and distribution by the Alameda County Transportation Authority of a one-half percent transactions and use tax. The District is authorized to receive 11.617% of the annual tax collected under the condition that the money be used for service exclusively in Alameda County.

In 2009, the District began receiving local sales tax revenue under Measure J, which is an extension of existing Measure C one-half percent sales tax for financing of transportation projects in Contra Costa County. As a transit operator in Contra Costa County, the District is eligible to submit project proposals to the Contra Costa Transportation Authority (CCTA) for funding under Measure J.

In 2015, the District began receiving local sales tax revenue under Measure BB. Approved by the voters of Alameda County, Measure BB provides for the collection and distribution by the Alameda County Transportation Authority of an existing one-half percent transaction and use tax scheduled to terminate on March 31, 2022 and the augmentation of the tax by an additional one-half percent. The District is authorized to receive 23.3% of the annual tax collected under the condition that money be used for transportation improvements benefitting Alameda County.

Local sales tax assistance for the year ended June 30, 2017, is summarized below (in thousands):

AB 1107	\$ 41,215
Measure B	23,046
Measure J	4,704
Measure BB	<u>31,421</u>
	<u>\$ 100,386</u>

Section 5307 and 5309 Funding Sources: All federal funding sources are distributed by FTA after approval by the MTC. Federal funding sources for the year ended June 30, 2017 are summarized below (in thousands):

5307 and 5309 Operating grants	1,037
Americans with Disabilities program - ADA set aside	4,187
Americans with Disabilities Act paratransit program – lease	1,320
Less amount reported within non-operating revenues of JPA and consortium	<u>(1,320)</u>
	<u>\$ 5,224</u>

At June 30, 2017, Federal Section 5307 and 5309 funds totaling \$5.5 million were recorded as a receivable.

NOTE 8 – LONG-TERM LIABILITIES

The following is a summary of changes in the District's long-term liabilities for the year ended June 30, 2017 (in thousands):

	Original Issue Amount	Balance June 30, 2016	Additions	Retirements	Balance June 30, 2017	Amount Due Within One Year
2007 COP						
4% - 4.75%, due August 8, 2017	\$ 13,500	\$ 3,135	\$ -	\$ (1,530)	\$ 1,605	\$ 1,605
Less unamortized premium		165	-	(163)	2	2
2009A COP						
3% - 6.125%, due August 1, 2034	15,000	12,755	-	(415)	12,340	430
Less unamortized discount		(332)	-	18	(314)	(18)
2012 Refunding COP						
4% - 4.75%, due August 1, 2018	9,840	<u>5,210</u>	<u>-</u>	<u>(1,700)</u>	<u>3,510</u>	<u>1,735</u>
Total long-term debt		<u>20,933</u>	<u>-</u>	<u>(3,790)</u>	<u>17,143</u>	<u>3,754</u>
Accrued vacation and sick leave		24,014	10,562	(8,567)	26,009	16,310
Claims liabilities (Note 13)		77,959	9,440	(14,601)	72,798	21,267
Remediation obligations (Note 12)		<u>1,019</u>	<u>-</u>	<u>-</u>	<u>1,019</u>	<u>67</u>
Total long-term liabilities		<u>\$ 123,925</u>	<u>\$ 20,002</u>	<u>\$ (26,958)</u>	<u>\$ 116,969</u>	<u>\$ 41,398</u>

On December 19, 2007, proceeds from the issuance of \$13.5 million of Certificates of Participation, Series 2007 (2007 COPS) were used to acquire and install a financial and human resources/payroll software system, including wiring and implementation of support services during the first year following completion. Interest on the 2007 COPS is payable semi-annually on February 1 and August 1 of each year through the year 2017.

On February 1, 2009, proceeds from the issuance of \$15 million of Certificates of Participation Series 2009A (2009A COPS) were used to acquire the land at 66th Avenue and all existing facilities and improvements. Interest on the 2009A COPS is payable semiannually on February 1 and August 1 of each year through the year 2034.

On February 1, 2012, the District issued Refunding Certificates of Participation Series 2012 (2012 COPS). The proceeds from the issuance of the \$9.84 million were used to refund and retire the 2001 COPS. Interest on the 2012 COPS is payable semi-annually on February 1 and August 1 of each year through the year 2018.

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 8 – LONG-TERM LIABILITIES (Continued)

The District's debt service requirements to maturity for each of the next 5 fiscal years and thereafter are summarized as follows (in thousands):

<u>Year Ended</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2018	\$ 3,770	\$ 786	\$ 4,556
2019	2,220	696	2,916
2020	465	660	1,125
2021	485	637	1,122
2022	510	611	1,121
Thereafter			
2023-2027	2,985	2,604	5,589
2028-2032	3,990	1,568	5,558
2033-2035	<u>3,030</u>	<u>286</u>	<u>3,316</u>
Total	<u>17,455</u>	<u>\$ 7,848</u>	<u>\$ 25,303</u>
Unamortized premium and discount	<u>(312)</u>		
Total	<u>\$ 17,143</u>		

Debt Limit: Board policy on debt limitation (as defined by Ordinance No. 3773) states that "total annual debt service expenses shall not exceed ten percent of operating revenue (including subsidies) provided that in no event shall such indebtedness exceed twenty percent of the assessed value of all real and personal property within the District." The District's legal annual debt service limit as June 30, 2017, is approximately \$38.6 million.

Arbitrage: The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of all tax exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service (IRS) at least every five years.

NOTE 9 – PENSION PLAN

Plan Description: The AC Transit Employees' Retirement Plan (Plan) is a noncontributory single-employer defined benefit pension plan, which provides retirement benefits for all qualifying union and non-union employees. Administration of the Plan is performed by the Plan's management staff and overseen by the Plan's Retirement Board. The Plan issues stand-alone financial statements and copies of these statements can be obtained from the District Controller, 1600 Franklin Street, Oakland, CA 94621.

The Plan's members are members of the Amalgamated Transit Union (ATU), the American Federation of State, County and Municipal Employees (AFSCME), the International Brotherhood of Electrical Workers (IBEW) and unrepresented employees. Each union vesting period is based upon its individual collective bargaining entity, which is 5 years for all employees other than ATU employees, who have an 8-year vesting requirement.

(Continued)

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 9 – PENSION PLAN (Continued)

Benefits Provided: Benefit provisions are established in the Plan document. The Plan document cannot be changed by the Retirement Board. Any change to the Plan document must be made by the District Board and for represented employees no changes can be made without the consent of the applicable union. Retirement benefits vest after either 8 years of service or 5 years of service, depending on the employee's classification. Most District employees who retire at or after age 55 with vested benefits are entitled to an annual retirement benefit, payable monthly for life, at a rate based upon age, the higher of either the average of the last 36 months of employment or the average of the highest 3 years of earnings and the completed years of service with the District.

Participants Covered by Benefit Terms: As of December 31, 2016, employee membership in the Plan was as follows:

Retirees and beneficiaries currently receiving benefits	2,030
Terminated employees entitled to benefits but not yet receiving them	<u>206</u>
	<u>2,236</u>
Current employees:	
Vested	1,221
Non-vested	<u>966</u>
	<u>2,187</u>

Contributions: The District makes contributions, based upon the Plan's actuarial calculation each fiscal year. As of January 1, 2013 California law required all new participants in a public retirement system to make employee contributions that covered at least 50% of the normal cost of the retirement benefits accrued each year. This contribution obligation does not apply to District employees hired prior to January 1, 2013. The District is in the process of implementing that obligation as to employees who are not represented by employee organizations. The application of that obligation to employees who are in bargaining units represented by employee organizations and who were hired after that date remains under consideration. For the year ended June 30, 2017, the District's average contribution rate was 33.16% of annual covered payroll and the District's contributions to the Plan were \$49,821,836. As of June 30, 2017, no employee contributions have been received by the Plan.

Actuarial Methods and Assumptions: The actuary used the following assumptions and methods in calculating the annual required contributions and the funded status:

Valuation date	January 1, 2016
Actuarial cost method	Entry Age Normal
Amortization method	Level percentage of payroll (12 years remaining as of 1/1/2016) with separate periods of Extraordinary Actuarial Gains or Losses (23 years as of 1/1/2016)
Asset valuation method	5-year smoothed market, 80%/120% corridor around market during the prior four years, phased in at 20% per year, but required to be within 20% of market value.

(Continued)

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 9 – PENSION PLAN (Continued)

Actuarial assumptions:

Investment rate of return	7.25%
Amortization growth rate	3.00%
Price inflation	3.00%
Salary increases	3.00% plus merit component based on employee classification and years of service
Health Mortality	Sex distinct RP-2000 Combined Mortality (130% of Blue Collar rates for ATU/IBEW, 120% of White Collar rates for AFSCME/Non-Union), with generational improvement using MP-2015
Disability Mortality	Mortality table for Disabled Participants Receiving Social Security Benefits published by the Pension Benefit: Guaranty Corporation (PBGC)

Measurements as of the reporting date are based on the fair value of assets as of December 31, 2016, and the total pension liability as of the valuation date, January 1, 2016, rolled forward to December 31, 2016. There were no significant events between the valuation date and the measurement date.

Mortality rates were based on the Sex distinct RP-2000 Combined Mortality tables with ages set forward one year for ATU/IBEW members and no set-forward for AFSCME/Non-Union members.

The actuarial assumptions used in the January 1, 2016 valuation were based on the results of an actuarial experience study for the period January 1, 2011 - December 31, 2014.

The long-term expected rate of return on the pension plan investments was determined using a building block method which estimates expected future rates of return (net of inflation) for each major asset class.

Best estimates of the arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2016 (see the discussion of the pension plan's investment policy) are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long Term Expected Real Rate of Return</u>
Large Cap Domestic Equity	22%	6.1%
Domestic Small Cap Equity	6%	6.9%
International Equity	14%	6.9%
International Small Cap Equity	3%	7.6%
Emerging Market Equity	6%	10.0%
Fixed Income (Core)	19%	1.4%
Fixed Income (Credit)	13%	3.4%
Emerging Market Debt	6%	4.3%
Real Estate	5%	4.8%
Private Debt	5%	6.1%
Cash	1%	0.0%
	<u>100%</u>

NOTE 9 – PENSION PLAN (Continued)

Changes in Assumptions and Benefit Terms Since Prior Measurement Date – There were no changes since the prior year measurement date.

Changes Since the Measurement Date – There were no changes between the measurement date and the District's reporting date.

Discount Rate: The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that the District will continue to contribute to the Plan based on an actuarially determined contribution, reflecting a payment equal to annual normal cost, the expected Administrative Expenses, and an amount necessary to amortize the remaining unfunded actuarial liability as a level percentage of payroll over an open (rolling) 12-year period, beginning in 2016. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members.

Net Pension Liability: The components of the net pension liability of the District at the measurement date of December 31, 2016 are as follows (in thousands):

Total pension liability	\$ 902,646
Less: Plan fiduciary net position	<u>(594,698)</u>
District's net pension liability	<u>\$ 307,948</u>
Funded ratio (Plan's fiduciary net position / total pension liability)	65.88%

The changes in the net pension liability for the Plan follows (in thousands):

	<u>Increase (Decrease)</u>		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balance at December 31, 2015	\$ 885,065	\$ 553,185	\$ 331,880
Changes for the year:			
Service cost	18,740	-	18,740
Interest	62,964	-	62,964
Difference between expected and actual experience	(11,563)	-	(11,563)
Contributions – employer	-	48,479	(48,479)
Net investment income	-	46,601	(46,601)
Benefit payments	(52,560)	(52,560)	-
Administrative expense	-	(1,007)	1,007
Net changes	<u>17,581</u>	<u>41,513</u>	<u>(23,932)</u>
Balance at December 31, 2016	<u>\$ 902,646</u>	<u>\$ 594,698</u>	<u>\$ 307,948</u>

(Continued)

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 9 – PENSION PLAN (Continued)

Sensitivity of the net pension liability to changes in the discount rate: In accordance with GASB 68 regarding the disclosure of the sensitivity of the net pension liability to changes in the discount rate, the following table presents the net pension liability (in thousands) as of June 30, 2017, calculating using the discount rate of 7.25%, as well as what the District's net pension liability would be if it were calculated using a discount rate of 1-percent-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate.

	(6.25%) <u>1% Decrease</u>	(7.25%) <u>Current Discount</u>	(8.25%) <u>1% Increase</u>
Net pension liability	\$ 402,645	\$ 307,948	\$ 227,057

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued AC Transit Employees' Retirement Plan audited financial statements and may be obtained from the District Controller.

For the year ended June 30, 2017, the District recognized pension expense of \$60.8 million. At June 30, 2017, the District reported deferred outflows of resources related to pensions from the following sources (in thousands):

	<u>Outflows of Resources</u>	<u>Inflows of Resources</u>
Employer contributions subsequent to measurement date	\$ 25,249	\$ -
Differences between expected and actual experience		10,596
Changes in assumptions	31,550	-
Net difference between projected and actual earnings on pension plan investments	<u>26,210</u>	<u>-</u>
Total	<u>\$ 83,009</u>	<u>\$ 10,596</u>

Deferred outflows of resources related to contributions subsequent to the measurement date of \$25.2 million will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows (in thousands):

	<u>Deferred Outflows/ Inflows of Resources</u>
June 30, 2017	\$ 17,998
June 30, 2018	17,998
June 30, 2019	14,816
June 30, 2020	<u>(3,648)</u>
	<u>\$ 47,164</u>

Payable to the Pension Plan: As disclosed in Note 5, the District reported a payable of \$5.7 million for the outstanding amount of contributions to the Plan for the year ended June 30, 2017.

(Continued)

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 10 – POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS

ATU Local 192 Benefit Trust

Plan Description: The ATU Local 192 Benefits Trust (the Trust) administers a single-employer defined benefit post-employment plan to assist eligible retirees with their medical costs. The Trust consists of three programs that provide other post-employment benefits: The A TU Retiree Health & Welfare Program, the AFSCME Retiree Medical Program and the IBEW Retiree Medical Program. The Trust provides medical benefits to all vested retirees at least 55 years old by paying a portion of the medical insurance premiums or reimbursement of eligible medical expenses not to exceed the maximum negotiated rates. Rates are negotiated between the District and the respective bargaining units. The Trust's board of trustees has historically adopted rates based on the premiums offered by participating providers.

Funding Policy: The District is required to make contributions to the Trust based on the number of hours worked by active union employees. The establishment and modification of the memorandums of understanding between the District and the respective bargaining units creates the authority under which the District is obligated to make its contributions. For fiscal year 2017, the required contribution rates were as follows:

<u>Bargaining Unit</u>	<u>Contribution Rate</u>
ATU Local 192	\$1.40 per hour per employee (will increase to \$1.50 per hour If the Trust's funds falls below \$2 million in assets.)
AFSCME	\$1.10 per hour per employee (as of April 1, 2017)
IBEW	\$1.04 per hour per employee

Annual OPEB Cost and Net OPEB Obligation: The District's annual other post-employment benefit (OPEB) cost is equal to the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost of each year and unfunded actuarial liabilities amortized over thirty years.

The following table shows the components of the District's annual OPEB cost for the year, the amount contributed to the plan, and changes in the District's net OPEB asset to the plan (in thousands):

Annual required contribution	\$ 7,054
Interest on net OPEB obligation	434
Adjustment to annual required contribution	<u>(403)</u>
OPEB cost	7,085
Contributions made	<u>(4,493)</u>
Increase in net OPEB obligation	2,592
Net OPEB obligation, beginning of year	<u>10,839</u>
Net OPEB obligation, end of year	<u>\$ 13,431</u>

(Continued)

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 10 – POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB asset for the current year is as follows (in thousands):

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
June 30, 2015	\$ 5,580	66.9%	\$ 8,859
June 30, 2016	\$ 5,819	66.0%	\$ 10,839
June 30, 2017	\$ 7,085	63.4%	\$ 13,431

Funded Status and Funding Progress: The unfunded actuarial accrued liability is being amortized as a level dollar of expected payroll on an open basis over thirty years, beginning July 1, 2007. As of June 30, 2017, the funded status of the plan was as follows (in thousands):

Actuarial accrued liability (AAL)	\$ 138,455
Actuarial value of plan assets	<u>2,713</u>
Unfunded actuarial accrued liability (UAAL)	<u>\$ 135,742</u>
Funded ratio (actuarial value of plan assets/ AAL)	1.96%
Annual covered payroll (active plan members)	\$ 152,685
UAAL as a percentage of annual covered payroll	88.91%

Actuarial Methods and Assumptions: Actuarial valuations of an on-going plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contribution of the District are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the District and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the District and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the actuarial valuation as of July 1, 2016, the actuarial cost method used was the projected unit credit method. This method allocates the present value of benefits for each individual attributable to service to date, using future compensation projected to retirement. The amortization method used was the level dollar open method; the remaining amortization period is 30 years. The actuary uses market value to determine the actuarial value of the plan assets.

The actuarial assumptions include a discount rate of 4.0%, an inflation rate of 3.5%, a healthcare cost trend rate of 8.5% for fiscal year grading down 0.5% each year to 5.0% for fiscal year 2024 and beyond.

The Trust issues stand-alone financial statements and copies of these statements can be obtained from the District Controller, 1600 Franklin Street, Oakland, CA 94621.

NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 10 – POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

Retiree Benefits Non-Trust Plan

Plan Description: The District administers a single-employer defined benefit post-employment plan called the Retiree Benefits Non-Trust Plan (the OPEB Plan) to assist eligible retirees with their medical costs. The OPEB Plan provides medical, dental, vision and life insurance benefits to all vested retirees and their spouses at least 55 years old by paying the current participating providers' insurance premiums. The medical insurance benefit is also available for a retiree's dependent, if applicable. The OPEB Plan differs from the Trust in that it provides Trust plan members supplemental healthcare benefits in addition to medical benefits, as well as providing medical benefits to District employees who are unrepresented. Insurance premium rates are negotiated between the District and the respective bargaining units. The District has historically adopted rates based on the premiums offered by participating providers. The OPEB Plan does not issue stand-alone financial statements.

Funding Policy: The District has historically funded the OPEB Plan on a pay-as-you-go basis. There is currently no requirement for either the District or the OPEB Plan members to make contributions to the OPEB Plan.

Annual OPEB Cost and Net OPEB Obligation: The District's annual other post-employment benefit (OPEB) cost is equal to the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost of each year and unfunded actuarial liabilities amortized over thirty years.

The following table shows the components of the District's annual OPEB cost for the year, the amount contributed to the plan, and changes in the District's net OPEB obligation to the plan (in thousands):

Annual required contribution	\$ 4,232
Interest on net OPEB obligation	292
Adjustment to annual required contribution	<u>(422)</u>
OPEB cost	4,102
 Contributions made	 <u>(2,414)</u>
 Increase in net OPEB obligation	 1,688
Net OPEB obligation, beginning of year	<u>7,307</u>
 Net OPEB obligation, end of year	 <u>\$ 8,995</u>

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the current and prior years are as follows (in thousands):

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
June 30, 2015	\$ 4,365	50.7%	\$ 5,355
June 30, 2016	\$ 4,262	54.2%	\$ 7,307

UAAL as a percentage of annual covered payroll	29.21%

Actuarial Methods and Assumptions: Actuarial valuations of an on-going plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contribution of the District are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the District and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the District and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the actuarial valuation as of July 1, 2016, the actuarial cost method used was the projected unit credit method. This method allocates the present value of benefits for each individual attributable to service to date, using future compensation projected to retirement. The amortization method used was the level dollar open method; the remaining amortization period is 30 years. The actuarial assumptions include a discount rate of 4.0%, an inflation rate of 3.2%, a healthcare cost trend rate of 8.5% for fiscal year 2017 grading down 0.5% each year to 5.0% for fiscal year 2024 and beyond, and a dental and vision cost rate of 3.0%.

NOTE 11 – COMMITMENTS

PTMISEA Grants: The Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006, approved by the voters as Proposition 1B on November 7, 2006, includes a program of funding in the amount of \$4 billion to be deposited in the Public Transportation Modernization, Improvement, and Service Enhancement Account (PTMISEA). Of this amount, \$3.6 billion in the PTMISEA is available to project sponsors in California for allocation to eligible public transportation projects.

During fiscal year 2010, the District submitted a Corrective Action Plan requesting additional PTMISEA grant funding on top of its fiscal year 2009 allocation to purchase buses.

(Continued)

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 11 – COMMITMENTS (Continued)

The California Department of Transportation (CalTrans) determined that the District was eligible to receive an additional allocation totaling \$8.826 million (2009 allocation). The funds were sent to the District prior to its purchase of the buses but are committed to funding future bus purchases. The funds must be encumbered within three years and expended within three years of being encumbered.

The District also acts a pass-through agency for the Transbay Joint Powers Authority (the TJPA) for various transportation projects such as the Transbay Transit Center.

In fiscal year 2017, the District did not receive any additional funding, and \$5.9 million of cost was incurred for the purchase of buses and Transit Access Improvement projects.

The following table shows the changes in activity related to the PTMISEA grant funds during the fiscal year as well as the remaining commitment as of June 30, 2017 (in thousands):

<u>Total Allocations as of June 30, 2016</u>	<u>Less Allocations Passed-through to TJPA as of June 30, 2016</u>	<u>Total Allocations Received in FY 2017</u>	<u>Cumulative Expenses Incurred through June 30, 2017</u>	<u>Interest Income</u>	<u>Commitment at June 30, 2017</u>
\$ 112,515	\$ (21,165)	\$ -	\$ 67,016	\$ 223	\$ 24,557

NOTE 12 – CONTINGENCIES

Lease and Use Agreement for the Temporary Terminal and Transit Center: In September 2008, the District approved a Lease and Use Agreement for the Temporary Terminal and the new Transit Center with the TJPA. The agreement sets forth the parties' rights and obligations up to the year 2050 with respect to (a) the District's bus operations in the Temporary Terminal and the new Transit Center; (b) the District's contribution to offset annual operating costs for the Temporary Terminal and Transit Center; and (c) the District's capital contributions to build the Transit Center in the sum of \$57 million (in 2011 dollars). The District's \$57 million contribution will be funded through a combination of payments from various grant funded sources and a proposed passenger facilities charge.

Projected contributions are scheduled as follow (in thousands):

	<u>Payments</u>
2018	\$ 1,216
2019	1,483
2020	1,507
2021	1,532
2022	1,817
2023 – 2027	10,369
2028 – 2032	13,905
2033 – 2035	17,608

Claims and Potential Litigation: There are claims and litigation pending, which are considered normal to the District's operation of the transit system. The District maintains insurance coverage for such incidents, as summarized in Note 13, and provisions have been made in the financial statements for estimated losses under the self-insurance retention limits of insurance policies.

(Continued)

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 12 – CONTINGENCIES (Continued)

Pollution Remediation: The District has an estimated \$1.0 million in liabilities for the monitoring and potential clean-up costs for pollution remediation obligations. The District has several locations where soil and groundwater has been contaminated.

The Alameda County Health Care Services Agency (ACHCS) and the Alameda County Water District (ACWD) issued directives to the District to perform groundwater monitoring and require conceptual models and feasibility studies to address possible mitigation measures. The estimated liabilities were measured at current value using the expected cash flow technique for each obligating event based on current and estimated costs. Changes to estimated liabilities will be made when new information, such as changes in remediation plans, technology and legal or regulatory requirements, becomes available.

NOTE 13 – RISK MANAGEMENT

As of June 30, 2017 the District has the following coverages:

<u>Type of Coverage</u>	<u>Deductible</u>	<u>Coverage Limit</u>
General Liability	\$1,000,000	\$2,000,000 per occurrence with excess up to \$53,000,000
Auto Liability	\$2,000,000	\$2,000,000 per occurrence with excess up to \$53,000,000
Workers' Compensation	\$1,000,000	Statutory Limit
Property, Boiler and Machinery, Auto Physical Damage	\$100,000	\$100,000,000

The District accrues a liability for claims and litigation (including a reserve for claims incurred but not reported) based on an actuarial study. The liability includes allocated and unallocated claims adjustment expenses and incremental claim expense. In addition, the District is partially self-insured for health and dental exposure. Management has evaluated the potential liability and recorded an accrual, which includes an amount for incurred but not reported claims.

During the year ended June 30, 2017, the actuarial estimates based on the 75th percentile discounted at 3.5% to estimate its liability for worker's compensation and the public liability claims were \$54.9 million and \$17.7 million, respectively.

Changes in the reported liability resulted from the following (in thousands):

	<u>Workers' Compensation Liability</u>	<u>Public Liability</u>	<u>Dental Liability</u>	<u>Total</u>
Balance at June 30, 2015	\$ 50,125	\$ 15,668	\$ -	\$ 65,793
Claims and changes in estimates	12,794	14,251	4,826	31,871
Claim payments	<u>(10,467)</u>	<u>(4,785)</u>	<u>(4,453)</u>	<u>(19,705)</u>
Balance at June 30, 2016	\$ 52,452	\$ 25,134	\$ 373	\$ 77,959
Claims and changes in estimates	14,146	(4,675)	(31)	9,440
Claim payments	<u>(11,672)</u>	<u>(2,743)</u>	<u>(186)</u>	<u>(14,601)</u>
Balance at June 30, 2017	<u>\$ 54,926</u>	<u>\$ 17,716</u>	<u>\$ 156</u>	<u>\$ 72,798</u>

(Continued)

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 13 – RISK MANAGEMENT (Continued)

Settled claims have not exceeded the commercial coverage in any of the past three fiscal years. There have been no significant reductions in insurance coverage from the previous year.

The classification of the current and long-term portion of the self-insurance liabilities for the year ended June 30, 2017 are summarized as follows (in thousands):

	<u>Current</u>	<u>Long-term</u>	<u>Total</u>
Workers' compensation liability	\$ 13,732	\$ 41,194	\$ 54,926
Public liability	7,379	10,337	17,716
Dental liability	<u>156</u>	<u>-</u>	<u>156</u>
	<u>\$ 21,267</u>	<u>\$ 51,531</u>	<u>\$ 72,798</u>

NOTE 14 – JOINT POWERS AUTHORITY (JPA) AND CONSORTIUM

In 1994, the District and BART executed a joint powers authority (JPA) agreement establishing the East Bay Paratransit Consortium. The District supports the project primarily through its own operating funds, with some financial assistance from Alameda County Measure B funds. The purpose of the Consortium is to provide Americans with Disabilities complementary paratransit services in Alameda and western Contra Costa counties. The area served encompasses the AC Transit/BART coordinated service area. Revenues and expenses for the Consortium are split 69/31 between the District and BART, respectively, and the District's financial statements reflect its portion of revenues and expenses as operating activities. The District has no equity interest in the Consortium.

Effective October 1, 2003, the Consortium discontinued the practice of rotating lead agency responsibilities on an annual basis. Key administrative support functions are now permanently assigned to each participating agency. Also effective October 1, 2003, a Service Review Advisory Committee (SRAC) was established to serve in an advisory capacity to the Service Review Committee. The primary mission of the SRAC will be to advise on planning, policy and other matters related to the Consortium; advocate for high quality, safe, reliable and courteous paratransit services; and to provide a forum for public input and participation in the review, assessment and evaluation of the ADA paratransit service.

Since July 1, 1993, under a cooperative agreement, the District has also been serving as the lead agency in a consortium that also includes BART, The City of Union City, San Mateo County Transit District (SamTrans) and the Santa Clara Valley Transportation Authority (VTA) to provide Dumbarton Express Bus Service which runs from the Union City Bart Station across the Dumbarton Bridge into Santa Clara and San Mateo counties, including a connection with CalTrain. Over this timespan this service has been periodically been put out to bid, and typically it has been run by a third party purchased transportation provider. While the District is the lead agency, funding from other agencies is directed to the District in order to support this consortium service.

In fiscal year 2017, the District recognized \$17.3 million of revenue and subsidy and incurred \$29.0 million of expenses related to the JPA and the Consortium. Neither the JPA or the Consortium issue separate financial statements.

ALAMEDA-CONTRA COSTA TRANSIT DISTRICT
NOTES TO SUPPLEMENTARY INFORMATION
For the year Ended June 30, 2017
(In Thousands)

NOTE 1 - BUDGETARY BASIS OF ACCOUNTING

The District's fiscal policies establish the framework for the management and control of the District's resources to ensure that the District remains fiscally sound. The District's goals and policies, which are approved by the Board of Directors, determine where and how District resources should be dedicated. For this reason, District goals, objectives, short and long-range planning and performance analyses are incorporated into the budget development process.

It is the policy of the District that the Board of Directors approves an annual budget prior to the beginning of each fiscal year. The budget is developed generally using the accrual basis of accounting. See the following section for a reconciliation of budget versus generally accepted accounting principles.

NOTE 2 - BUDGETARY BASIS DIFFERENCES

As discussed in Note 2, the accompanying basic financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP). The following is a summary of the differences between GAAP and budgetary basis:

- Perspective differences resulting from the Corporation and the Paratransit operations not budgeted.
- Capital outlay presented represents capital outlay funded by the District's operations and this is reported as an outflow of budgetary resources but is not considered an expense for financial reporting purposes.
- Depreciation on capital assets funded by District operations is not budgeted, as it is not an outflow of budgetary resources.

The effect of these differences between budgetary and GAAP accounting on the June 30, 2017 basic financial statements of the District's budgeted fund is as follows (in thousands):

Change in net position on GAAP basis	\$ (2,381)
Perspective differences	<u>168</u>
Change in net position on the budgetary basis	<u><u>\$ (2,213)</u></u>

NOTE 3 - SCHEDULE OF REVENUES AND EXPENSE BY SERVICE AREA

As discussed in note 1 to the financial statements, the District's basic financial statements include the financial activities of the District's Special Transit Service Districts No. 1 and No. 2. The amounts recorded in this schedule do not reflect paratransit activity and activity of the AC Transit Financing Corporation. The District's revenues between these Special Transit Service Districts are allocated based predominantly either on estimated actual revenues, farebox revenue allocations or on a ratio that uses service hours and service miles in Special Transit Service Districts No. 1 and No. 2. The District's expenses between these Special Transit Districts are allocated based predominantly either on operator wages or on a ratio that uses service hours and service miles in both Special Transit Service Districts No. 1 and No. 2.

Notes:

¹ Rates reflect voter approved Proposition 13 provisions limiting property tax levy to 1 percent of full cash value plus levies to pay for indebtedness approved by voters. The rates shown under special districts, schools and cities represent the levies for indebtedness.

² In June 1978, California voters approved Proposition 13 which restricted the taxing power of local government agencies. Individual agencies do not establish in their own property tax rates, except for voter approved indebtedness. Instead, a countywide rate is levied with the proceeds distributed to all agencies according to formulas specified by the state legislature. The countywide rate is 1 percent of assessed value (\$1 per \$100 of taxable assessed valuation). The rates shown above are allocations of the 1% tax on assessed valuation.
